

# ANAC CONSULTANTS PVT.LTD.

PRECISION IN MOTION

# OUR STORY

## COMPANY OVERVIEW

Founded in 2019, our company has become a trusted manufacturer and supplier of TBM (Tunnel Boring Machine) cutter spares, locomotives, and rolling stock solutions. We specialize in premium Die Steel and Carbide Parts for TBMs, engineered for precision, durability, and optimal performance in demanding underground conditions.

We also offer high-quality precision parts for railway and industrial applications, ensuring reliability, safety, and adherence to strict industry standards. From passenger to freight systems, our components support innovation and seamless operations.

## MISSION

Our mission is to deliver high-quality Die Steel components, TBM spares, and railway rolling stock parts that enhance efficiency and reliability. Through innovation, precision engineering, and a customer-first approach, we strive to be the preferred partner for tunnelling and rail operations worldwide.

## VISION

Our vision is to lead the mining, tunnelling, and rail sectors with world-class products and breakthrough technology. We aim to accelerate global infrastructure growth and build lasting partnerships rooted in trust, sustainability, and innovation.

## OUR SERVICES

- Die Steel And Carbide Components.
- Tunnel Boring Machine Supply.
- Tunnel Boring Machine Components- DISC Cutters.
- High Precision Components.
- Alloy Steel Metal Parts.
- Fabrication Specialization Components.

# OUR CORE PRODUCTS

We design and manufacture high-performance cutters tailored for various geological conditions.

Our cutters ensure maximum efficiency, reduced downtime, and extended operational life for tunnel boring machines.

# OUR CORE PRODUCTS

Cutter Spare Parts and Maintenance Solutions.

- Disc Cutters
- Scrapers
- Cutter Rings
- Bearing Assemblies
- Shaft
- Pneumatic Valves

# OUR CORE PRODUCTS

Locomotives and Rolling stocks and its maintenance.

Electric locomotive

Diesel locomotive
